

Luxembourg, December 5, 2017

Casa4Funds receives extension to its AIFM License and expands its business to Private Equity and Real Estate.

Casa4Funds SA ("Casa4Funds"), Independent Management Company and AIFM in Luxembourg, is proud to announce the extension of its services to Private Equity and Real Estate funds.

Further to the extension earlier this year of its Alternative Investment Fund Managers ("AIFM") license to Fund of Funds strategies and the current launch of its first SIF Multimanager Platform, Casa4Funds is now a fully licensed AIFM and will launch a first Fund including Private Equity, Debt and Real Estate assets during the first quarter 2018.

This is part of Casa4Funds long term strategy to develop its alternative funds service offer and reinforce its governance in an ever more demanding environment of expertise, substance and transparency to clients and investors.

Richard Maisse who joined the company in May this year and heads the Private Equity and Real Estate practice commented: "Receiving the official license extension to Private Equity and Real Estate from the CSSF in such a short time strongly satisfied us. This will allow Casa4Funds to extend the Man Co services already offered to "illiquid" strategies. We look forward to helping our clients to meet the growing demands on Risk Management, Investment Management, Investment Valuation but also on legal reporting, bringing them our know-how and experience but also the required infrastructure to develop and distribute their Funds".

"We are very excited of this new service offer that completes our business lines as super Man Co and to launch our first Private Equity and Real Estate Fund shortly. The extension received in a very short time comforts us on the governance and substance that we developed over the last 12 years and the investments realized. It is a major step in the achievement of our long term strategy dedicated to serving our clients on many different types of assets" stated Arnaud Bouteiller, General Manager at Casa4Funds.
